

JUNIPER POST

Note: Please ZIP all ADR sessions before uploading.

ADR Specs

Please record the ADR / VO to match the TC of the video Juniper/client provided.
Sample rate is to be 48k

ADR Mics

Sennheiser 416 on one track
LAV Sanken COS-11SBP on the other track

If these mics are not available, please call or email for equivalent shot gun and LAV mics recommendations from us. (Contact info below.)

Delivery to Juniper

Please give us a ProTools session zipped. (Currently we are using PT12)
If a ProTools session is not doable, an OMF/AAF is okay.
(Upload delivery, see below.)

Track Layout

Please put select recordings on one set of tracks and alt recordings on a 2nd set of tracks.
All other takes should be on tracks below the select and alt.

Contact info. - , 818-841-1244 ext 2

David Barber - Re-recording Mixer, davidbarber@juniperpost.com

Jas Pennington – Studio Manager, jas@juniperpost.com
